Week Report

Project	**Real-Time Bridge Monitoring**	**Week**	46
Name	Ghazaleh Shojaee nia	**Date**	18/11/13

Achievements

Work on Java basics
Draw flowchart with IDA

Problems

No cooperation in milano group which get me in a direct way of project

I need more time to spent with Milan colleagues but it's nothing unfortunately ! again ! because they did not assign any meeting during the week and reject anytime when I assigned.

Every member group work on his capability and no body consider my abilities ,anyone selected something different with my knowledge, and forced me to do with their own desire instead of using my capability.

Too much Discussion ,after any question asked for comprehension ! which makes me tired and not useful.

No allowance to be in any meeting with costumer !

Plans for the next week
More schematization in advance. **Expect Less discussion !!!!**

Hours spent		
Day	**Hours**	**Short description**
Monday	2	Read code policy and requirment
Tuesday	??	Will be completed
Wednesday	4	Read documents
Thursday	3	Read help ,work on git hub,…
